## ProSama 2010 Free Download PC/Windows

ProSama 2010 delivers the easy-to-use computing software to quickly and accurately calculate the estimated cost of nearly any project of any size. ProSama 2010 Benefits: Based on the same building cost model used by more than 300 of the country's top design/build firms, ProSama 2010 will deliver the most accurate estimate possible. It uses the American Institute of Architects (AIA) Database, offering user a source of reference for residential and commercial projects. The user friendly interface offers unlimited customization to fit any business and any size project. ProSama 2010 Features: ProSama 2010 is the most powerful Estimator in the industry, delivering proven results for all sizes of projects. It is an alternative to other estimators which deliver average results. ProSama 2010 quickly calculates a total cost of all of the components of your project. It delivers a complete breakdown of the construction costs (hardware, shop, general, concrete, masonry, electrical, plumbing, and mechanical) into percentages of completion or 100% cost on completion. ProSama 2010 provides the user with a mechanism to incorporate design drawings created on your computer. ProSama 2010 makes the knowledge of the field team transferable into the computer. It allows for bulk cost input and output. ProSama 2010 is easy to learn and easy to use. ProSama 2010 is absolutely free! ProSama 2010 Help: To take it for a test drive, visit [www.prosama2010.com](http://www.prosama2010.com). For support, call (800) 686-3290 or email [sales@prosama2010.com](mailto:sales@prosama2010.com). Newest Version: 2.2.0.2 File Size: 2.5 MB Date Added: 16 Oct 2007 Price: Free File Version: 2009.5.53.1 (CP-Win-6.1) Win Compatability: Windows 95/98/ME/NT/2000/XP File Description:

#### **What's New In ProSama 2010?**

ProSama 2010 provides estimated cost estimating, profit and loss analysis, project tracking and accounting for all types of contractors, including general, specialty and design-build. Whether your project is in the planning or is already underway, ProSama 2010 will guide you through the entire process from the initial design and supply selection through production, installation, and project closeout. ProSama 2010 can also deliver the report you need at the time you need it. With its many built-in features for time management and project reporting, ProSama 2010 is a true document management system as well as an essential estimating program. The idea behind ProSama 2010 Have you ever suffered the agony of tracking project activities manually, losing critical information along the way, while trying to keep your books in order, that is until you need to close out a project or file a report? When working on a small or large-scale project, no matter the type, project managers typically have to

---

manage and track a variety of activities simultaneously to meet tight time schedules, but the lack of a robust, easy-to-use tracking system can cause problems. With ProSama 2010, you can eliminate that pain and enjoy a fully integrated estimator that works for both design-build and design-bid-build projects that can also be tailored to your needs. ProSama 2010 will help you accurately track the status of your project right at your fingertips, with ProSama 2010's easy-to-read, task-oriented display and design-friendly interface. At the time of your choosing, ProSama 2010 will automatically generate the various reports needed to meet the specific needs of your project. Not only that, but ProSama 2010 will also allow you to easily and automatically prepare the necessary documents for your job site. In addition to project tracking, ProSama 2010 will help you keep your business organized with its built-in document management system and it can also take care of your accounts payable, accounts receivable and financials. With ProSama 2010, you'll be able to manage your projects and business activities with ease and get more work done in less time. Features ProSama 2010 is an all-in-one program that will help you reduce your time and paperwork, as well as increase your efficiency by making your work flow streamlined and your files easy to access. With ProSama 2010, you can use ProSama 2010 to manage any type of contractor from the initial drawing through installation
